

JOINT CONFERENCE

April 27 - 30, 2022 | Skamania Lodge

Friday, April 28th, 2023

- 8:00AM - 9:00AM** **Registration, Breakfast & Vendor Show**
- 9:00AM - 10:30AM** **Forgotten Factors of ROI**
 Nicole Rose Yen
 We face decisions every day and take into account various factors. How do you know if you're making good decisions? Or even more importantly, are you making the best decisions? We cover how to use ROI to evaluate and weigh decisions against each other.
- 10:30AM - 11:30AM** **Denture Ergonomics with Biofunctional Prosthetic System**
 Naser Al-Tameemi, L.D., A.S.
 Learning a technique where your end results are repeatedly accurate with less visits and less need for adjustments compared to the conventional workflow.
- 11:30AM - 12:30PM** **Scan, CAD, CAM: Digital Denture Basics**
 James Anderson
 Learn what's needed to get started with digital dentures. Scanning, designing, manufacturing, James will demonstrate how to incorporate a digital workflow with minimal to no changes to your existing clinical methods.
- 12:30PM - 2:00 PM** **Lunch & Vendor Show**
 Sponsored By 
- 2:00PM - 3:00PM** **Digital Partial Denture Design**
 Jeremy Den Ouden, James Shroyer and George Cowburn
 I've learned some new benefits of digital dentures as well as some pitfalls others should be aware of. A new reveal will also be officially made.
- 3:00PM - 4:00PM** **Digital Dentures Roundtable Q&A**
 Josh Brooks, James Shroyer, George Cowburn and James Anderson
 A Roundtable discussion on Digital Dentures, answering your questions.
- Afternoon** **Dinner on Own**

5:00PM - 7:00PM **Ax Throwing Social Event**
 Registration required for extra event.

Dan Wells

12:00PM - 1:30PM

Lunch & Vendor Show

1:30PM - 2:00PM

General Membership Meeting & Elections

2:00PM - 4:00PM

Analog Loves Digital: Capturing the Best of Both Worlds

Sponsored By **ivoclar**

Esther Schwenning

In this lecture Esther will cover where the latest in denture technology has taken us. We never forget our roots. How we can use tried and true BPS methods and techniques to guarantee predictable analog or digital outcomes. How to transition to digital by either jumping straight in or just getting your toe wet. And how to merge your workflow from analog to digital back to analog again. We will talk about esthetics, strengths and weaknesses of both printing and milling and how to get the best return on your investment. Intra-Oral scanner vs desktop scanners....do you need both? We will also cover what does a digital denture clinic look like and what levels of dentures can you offer with changing your workflow. Question and Answer to follow.

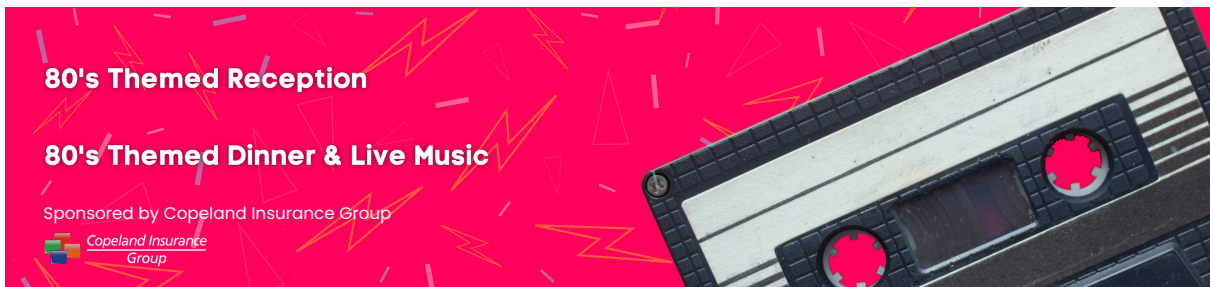

6:30PM - 7:30PM

80's Themed Reception

7:30PM - 11:00PM

80's Themed Dinner & Live Music

Sponsored by Copeland Insurance Group

Sunday, April 30th, 2023

8:00AM - 9:00AM

Breakfast

9:00AM - 10:00 AM
